

July 29, 2024

Dear CPS Energy Customer:

Thank you for being our customer. We invite you to attend an open house to learn about a proposed transmission line project in your area—the Ranchtown to Talley Road Project.

The project involves the proposed installation of a new 138 kilovolt (kV) transmission line. A significant portion of the project (10.8 miles) will involve installation of the new line on a vacant position on existing structures. A portion of the project (1.3 miles) will involve the rebuilding of existing single circuit transmission facilities for double circuit operation for the new line. In total, the project will consist of 12.1 miles of new transmission line connecting the existing Ranchtown and Talley Road substations.

At the Open House, you will have the opportunity to learn more about the project and the steps required to complete the work. We welcome your questions, comments, and input regarding this project. CPS Energy team members directly involved with the project will be present to answer your questions and receive feedback you provide.

The Open House will have an informal “come and go” format with information stations addressing specific areas of the proposed project.

**CPS Energy Open House**

Ranchtown to Talley Road Transmission Line Project

August 12, 2024

5:30pm - 7:30pm

Los Reyes Elementary School Cafeteria

10785 Triana Pkwy

Helotes, TX 78023

A brochure describing the proposed project and a map of the study area is included in this packet. Additional information will also be available at [www.cpsenergy.com/infrastructure](http://www.cpsenergy.com/infrastructure). Scroll down to the “Ranchtown to Talley Project.”

We look forward to meeting you, receiving feedback you provide, and answering your questions. Thank you in advance for taking the time to join us.

Sincerely,

**Antonio DeMendonca**
